DETAILED ACTION
RESPONSE TO AMENDMENT

1. This Office action is response to Applicant's amendment, filed on 11/14/2003.
2. Claims 19-51 are added.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 19-51 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Hartheimer et al. (U.S. Pat. No. 5,305,200) in view of Ginter et al (U.S. Pat. No. 6,185,683).

As per claims 19, 21, 22, 23, 24, 25-30, 32-41 and 43-51 Hartheimer substantially discloses a system/method for distributing online automated trading system uses structured messages to represent each stage in the negotiation between a market (quoter) and a potential buyer or seller (which is seen to read as Applicant's claimed invention wherein it is stated that a method for completing a purchase order/invoice (or items), comprising the steps of:

allowing a buyer to select among a plurality of documents associated with proposed transaction (see., abstract, specifically wherein it is stated that online automated trading system uses structured

messages to represent each stage in the negotiation between a market (quoter) and a potential buyer or seller, and also col 2, lines 45-68, lines 5-40);

allowing the buyer to indicate requirements (or negotiate) of trade terms of an agreement relating to the documents (see., see., abstract, specifically wherein it is stated that online automated trading system uses structured messages to represent each stage in the negotiation between a market (quoter) and a potential buyer or seller, and also col 2, lines 45-68, col 3, lines 5-40, col 6, lines 5-40);

permitting a seller to at least one of agree to and amend the trade terms on an electronic document platform (see., col 2, lines 45-68, col 6, lines 5-40);

creating a new version of a form delineating the trade terms upon each amendment (see., abstract, col 2, lines 45-68, col 3, lines 5-40);

allowing a negotiation of the trade terms of the agreement between the buyer and the seller (abstract, col 2, lines 45-68, col 6, lines 5-40);

displaying the form detailing the negotiation of the trade terms (see., abstract, col 2, lines 45-48, specifically wherein it is stated that display and process all relevant details);

organizing and storing the documents supporting the form (see., col 5, lines 27-50);

initiating payment to the seller only after receiving a verification of credit of the buyer (see., col 2, lines 45-68, please note that after negotiation, a payment must be provided, and also col 3, lines 47-56, col 4, lines 6-15).

Art Unit: 3621

organizing and storing documents supporting the form (see., col 5, lines 27-50). It is to be noted that Hartheimer fails to explicitly disclose a digital signature of the form of the detailing negotiations .

However, Ginter discloses a trusted and secure techniques, systems and methods for item delivery and execution wherein documents and other items can be delivered electronically from sender to recipient. Documents can be marked with digital signature (see., abstract, col 7, lines 28-38, col 9, lines 40-49, col 23, lines 60-67, col 24, lines 1-10). Accordingly, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the financial exchange of Hartheimer by including the limitation detailed above as taught by Ginter because such modification would provide a system/method that can affix visible seal on printed items or terms or documents such as documents for use both in encoding receipt and other receipt and/or usage related information and for establishing a visible presence and impact regarding the authenticity, and ease of checking the authenticity, of the item. (See., Ginter, col 7, lines 33-38).

As per claims 20, 31 and 42 Hartheimer discloses the claimed method, wherein the form includes a first section indicating the terms, a second section for allowing the buyer to sign off on the terms, and a third section for allowing the seller to sign off on the terms (see., abstract, col 2, lines 45-68).

RESPONSE TO ARGUMENTS

Art Unit: 3621

5. Applicant's arguments filed on 11/14/2003 have been fully considered but they are not persuasive.

REMARKS

6. In response to Applicant's arguments, Applicant argues that the prior art of record taken alone or in combination fail to disclose:

a. "allowing a buyer to select among a plurality of documents associated with a proposed transaction". Based upon the foregoing rejection indicated above, it is believed that Hartheimer discloses this limitation in the abstract, specifically wherein it is stated that online automated trading system uses structured messages to represent each stage in the negotiation between a market (quoter) and a potential buyer or seller, and also col 2, lines 45-68, lines 5-40).

b. "creating a new version of a form delineating trade terms upon each amendment". As noted above, Hartheimer discloses this limitation in the abstract, col 2, lines 45-68, col 6, lines 5-40).

c. "filtering the form's trade terms and outputting the form with only the trade terms. However, the Examiner respectfully disagrees since Hartheimer in the abstract, specifically wherein said verifying (or filtering a trade order) whether an order was actually received by the quoter, and also col 2, lines 45-68).

CONCLUSION

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
